

WS Stakeholder Pension Scheme

Small Pot Lump Sum Payment Instruction Form

Important Information

This form should be completed if you have a WS Stakeholder Pension Plan and you want to take all your pension savings as a small pot lump sum payment.

To qualify for this option:

- You must be aged 55 or over or meet the conditions to take benefits early under the ill-health rules.
- The value of your stakeholder plan must be no more than £10,000.
- You must have taken no more than two previous small pot lump sum payments from any of your pension schemes with any provider.

Continuing income in retirement and provision for dependants: Pension savings are designed to provide an income in retirement and potentially provide benefits for dependants. By choosing to take your full pension pot as a lump sum, this means that you will have no remaining pension savings in this plan to provide an income in retirement or for your dependants. Use of this pot may therefore impact your or your dependants' future requirements. You should therefore consider carefully the taking and use of this pot in light of all the circumstances including your other savings, investments, assets and liabilities, your needs and those of your dependants and the tax and other consequences of taking this lump sum.

Taxation: 25% of the pension sum is paid tax free, with the remaining 75% taxed as income, under Pay As You Earn (PAYE). Depending on how much other income you have, the value of income payments we make to you might push you into a higher rate tax bracket, even if you are not normally a higher rate taxpayer. This is important to remember, particularly if you are still working and drawing income from your pension savings. You can claim a refund of overpaid tax direct from HMRC. HMRC will usually respond within 30 days. See www.gov.uk/claim-tax-refund/you-get-a-pension or call your tax office for more information.

Inheritance Tax: Monies taken from your pension (tax-free cash, income payments or lump sums) form part of your estate if not used up before you die. Your estate may be liable to Inheritance Tax on such amounts. By contrast, any part of your pension pot that was untouched would not normally be liable to Inheritance Tax. If you are unsure about the effect that your chosen option will have on the amount of Inheritance Tax your beneficiaries may need to pay we recommend that you seek advice from a suitably qualified tax professional.

State Benefits: Taking your pension savings as a small pot lump sum could reduce or even stop any State Benefits you may currently receive or be entitled to in the future. Income payments from your pension savings may be included in your total income when assessing your eligibility for benefits.

HELPING YOU DECIDE

We strongly recommend you use the free Pension Wise guidance service and if necessary, seek advice from a financial adviser to help you choose the option that best suits you. The Government is concerned that, since it was set up, only a small proportion of individuals accessing their pension pot for the first time have used Pension Wise guidance. The Financial Conduct Authority (FCA) now requires us to check and record whether customers who are aged 50 and over have contacted Pension Wise to make full use of this free service and/or taken financial advice. At the time you come to access your funds, we will ask you to confirm whether you have used Pension Wise and/or taken financial advice. Our team would be happy to assist in organising an appointment for you. Please get in touch to request this, and we can book a guidance appointment for you at a time and date that suits. Alternatively, should you prefer, you can book an appointment directly by going to <https://www.moneyhelper.org.uk/en/pensions-and-retirement/pension-wise> or calling 0800 138 3944. Please note, whether we book your appointment or not, we will still need to confirm and record whether you have used Pension Wise and/or taken financial advice. You can find details of independent financial advisers in your area at www.unbiased.co.uk.
